

Pick & Stack Bale Handler

The **Cashels Pick & Stack Bale Handler** has been developed to cater for the transportation and stacking of 4 foot wrapped bales without causing damage to the film.

The unit contains a telescopic mast in conjunction with a Ducks Foot Bale Handler. The unique design allows the unit to be used for stacking wrapped bales two-high at the storage area, for loading and unloading wrapped bales to and from a bale trailer. During the winter period the unit can be used for handling/loading mature round bales into feed trailers and stock feeders.

Key Features:

- Transports & stacks wrapped bales two-high
- Loads and unloads wrapped bales to and from a bale trailer
- Handles/loads mature bales during the feeding season
- Handles misshapen/sagged bales
- Heavy Duty construction throughout

Standard Configuration

Winter Configuration

Easily stacks two high

The Ducks Foot Bale Lifter handles without damage to film

Model	Length (mm)	Width (mm)	Max Lift Height (mm)	Linkage	Load Capacity	Net Weight (kg)	Tractor (HP)
